

Patti and Twenty Years of Outstanding Service!

We would like to give a big thank you to one of our hygienists, Patti, who is celebrating her 20th year of working with Dr. Oppenlander. As many of you know, Patti is a very knowledgeable and gentle hygienist who always has a smile for her patients. We appreciate all of Patti's great work for the last twenty years and look forward to at least twenty more!

Our Office is always available to you!

We realize that many people can not afford to miss work, and understand that you are now busier than ever. Our office is able to customize appointments for days and times that work well for you. Dr. Oppenlander and our team are making themselves available before and after regular business hours as well as during some lunch hours to offer patients the opportunity to maintain their health despite their demanding schedules.

In an effort to better serve you, our office voicemail is checked frequently during times our office is closed. Of course, any urgent issue will be managed immediately. Also checked on a regular basis is our email, **info@MichiganAdvancedDentistry.com**, which can be accessed through our website at **www.MichiganAdvancedDentistry.com**.

Wishing you a happy and healthy holiday season!

Hello to all friends of our practice!

We wish you a happy and healthy winter season and would like to take a moment to express our appreciation for allowing us the opportunity to serve you.

As our nation and community begin to rebuild the economy, we would like to do our part by creating ways for you to save on dental health costs.

Exciting News about Sonicare!

We feel that one way to reduce dental healthcare costs is to improve your preventive care at home. One way to accomplish this is by use of a Sonicare toothbrush. After extensive research by our own dental team, Dr. Oppenlander recommends this product. We have several types of toothbrushes to choose from, including a special line for children. Our office is able to offer lower prices than the retail outlets currently selling Sonicare products, and our dental team can help you find the perfect toothbrush.

About Sonicare:

- Sonicare toothbrushes have been clinically proven to remove significantly more plaque than a manual toothbrush which reduces gingivitis and improves overall gum health.
- The dynamic sonic technology is proved to remove extrinsic (coffee, tea, and tobacco) stains and also helps naturally whiten teeth by up to 2.5 shades in 2 weeks in some cases.
- Sonicare is demonstrated to be safe and gentle for those with sensitive teeth and gums. In vitro studies prove that Sonicare is safe and gentle on veneers, implants, and other restorative materials.
- Regular brushing with a Sonicare toothbrush is proven to help shrink periodontal pockets.

As you know, it is very important for children to establish healthy oral hygiene habits at an early age.

The children's Sonicare toothbrush is designed to help children increase brushing time while delivering a gentle, effective cleaning. It is ergonomically designed to enable parents and kids to brush together or on their own while using fun sounds and kid-friendly power modes.

There are brushes specifically designed for individual needs, and they also make great gifts during the holiday season! Using a Sonicare toothbrush in conjunction with maintaining your recommended preventive visits in our office helps to reduce major treatment and overall dental costs. Please visit our website at www.MichiganAdvancedDentistry.com to learn more.

Dental Insurance and Options

If you have dental insurance, you may be noticing your premiums have gone up while the level of coverage offered by the insurance company has gone down. Another way we can help with costs is by assisting with your insurance account management. Our office is sympathetic to these conditions and offers patients several different flexible financial options to better accommodate treatment whether or not you have insurance. When scheduling appointments for treatment, one of our practice coordinators will discuss all available treatment and financial options with you. Please feel free to contact our office if you have any questions about this.
